SETTING UP INTERNET EXPLORER TO USE WITH WOW FOR THE FIRST TIME

Before using WOW on your computer for the first time, you must make WOW a trusted website and allow pop-up windows and set view/zoom to 100%. These actions only need to be performed one time within the Internet Explorer web browser on your Windows computer.

1. **How to make WOW a trusted website:**

   a. Click the Tools icon in the top-right corner of the Internet Explorer window:

   b. On the menu click **Internet Options**

   c. Click the **Security** tab, click the **Trusted Sites** icon, click the **Sites** button

   ![Internet Options](image)

   d. Copy/paste the following highlighted website into the “Add this website to the zone:” textbox.  
   ![https://hyperion.umd.edu](image)

   e. Click **Add** to add the website to the list of trusted sites

   ![Add](image)

   f. Make sure there is a checkmark next to “Require server verification (https:) for all sites in this zone.

   ![Select](image)

   g. Click **Close**
2. How to allow pop-up windows for WOW:
   a. While still in Internet Options, click the Privacy tab.
   b. If “Turn on Pop-up Blocker is checked, click the Settings button.

   ![Internet Options](image)

   **NOTE:** If you do not have this option checked it means that pop-up windows are not being blocked for any websites. If this is the case for you, click OK to close the Internet Options window.
   c. Copy/paste the following website into the “Address of website to allow:” textbox.
      
      hyperion.umd.edu
   d. Click Add to add the website to the list of “Allowed sites.”

   ![Pop-up Blocker Settings](image)

   e. Click Close
   f. Click OK

3. Set View/Zoom to 100%

   a. Click the Tools icon in the top-right corner of the Internet Explorer window
   b. Zoom needs to be set to 100%. If it is not, point the mouse on ZOOM, then select 100%
