

Expanding Learning Opportunities Beyond the Classroom Walls

ACADEMIC TECHNOLOGY

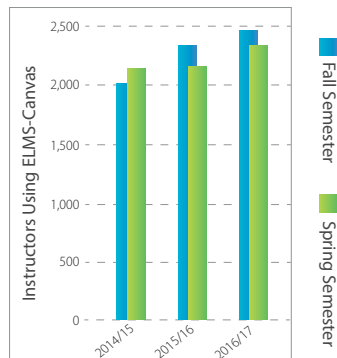

Innovating the UMD digital learning and research experience.

There is an increasing number of published course sections.

The number of instructors adopting ELMS-CANVAS increases every year.

UMD students are working digitally to learn and succeed. During Spring 2017, a typical student submitted **4 assignments** and **1 quiz** every week, and posted **a discussion** entry every other week.

During the 2016/17 academic year, **14,091** active course sections were published by **4,852** instructors in ELMS-Canvas.

During **Spring 2017**, an average of **28,485** people used ELMS-Canvas every day. Students posted over **190,000** discussion entries and submitted over **340,000** quizzes and **2.3 million** assignments!

How many Terps access ELMS-Canvas within a week?

ELMS-Canvas usage distribution during a week of the Spring 2017 semester (April 16-22, 2017).
