What’s New with Cisco Webex Meetings

We’ve expanded the space used for video meetings, added new layouts, and simplified your meeting controls.

Centralized Meeting and Event Controls

- Get easy access to all essential meeting controls in one place.
- Access the meeting info to get details about the meeting.
- Change your video layout to control where you view participants and panels (on your screen).
- Meeting controls hide when you’re not using them and re-appear when you move your cursor.

Get easy access to all essential meeting controls in one place.
